

ANNUAL REPORT 2021-22

To groom every child into a loving, caring, courageous citizen, capable of facing challenges in life with confidence; imbibing the qualities of truthfulness, humility, integrity and a deep concern for the fellow beings of “Ganapathy English Medium School”.

Education is the greatest gift by God to man. We strive holistically to give our students the best of all worlds. The voyage started thirty-two years ago and has already covered sufficient distance, marking a successful beginning. The journey progresses further towards the dreamt destination. Every year with refreshed energy and enthusiasm the journey starts.

A few year glimpses of our infinite efforts to contribute to every parent’s dream of giving their child the best education. Systematic and efficient teaching and guidance, repeated tests, evaluations, interactions paid rich dividends in the form of outstanding result which bettered the performance of previous year. The collective effort and team spirit brought marvelous output.

SSLC Topper felicitated during PTA meeting on June 1st

Gratitude

GEMS has taken long strides in its journey towards success. The trials and tribulations that it faced since its inception have strengthened it to face new challenges in the educational milieu. The united efforts of the staff and the encouragement and support from the Management have contributed a great deal in setting up an elite school.

Teachers work with sincerity, commitment and a will to excel, have helped in invigorating the school activities with innovative ideas and imparting quality based education.

Parents have always been cooperative and encouraging in all our activities. Their deep faith in us has helped to bring about the all round development in every child-body, mind and spirit. Counselling and guidance are the integral part of the teaching-learning process.

To Conclude

“ Coming together is a beginning; keeping together is progress; working together is success.”

It is with this spirit we have to work in order to be in the race. Society is changing at a brisk rate. The attitude of both students and parents are changing. There is greater expectation from the society. The challenge ahead of us is to be faced with grit and determination. There is a need to work with innovations to meet the challenges and expectations of the fast changing society.
